INDEX—TARTALOM
TOMUS XXVIII — 1967 — 28. KÖTET

Askey, R., Smoothness conditions for Fourier series with monotone coefficients 167–172
Berger, C. A., and **Stampfli, J. G.**, Norm relations and skew dilations ..... 191—196
Butzer, P. L., und **Pawelke, S.**, Ableitungen von trigonometrischen Approximationsprozessen ..... 173—184
Corradi, K. A., A remark on the theory of multiplicative functions ..... 83—92
Corradi, K. A., and **Kátai, I.**, On multiplicative characters ..... 71—76
———An example in the theory of Fourier series ..... 77—82
Deckard, D., Complete sets of unitary invariants for compact and trace-class operators 9—20
Deckard, D., and **Pearcy, C.**, On rootless operators and operators without logarithms 1—8
Durszt, E., On the spectrum of unitary ϱ-dilations ..... 299—304
Fáy, Gy., Transitivity of implication in orthomodular lattices ..... 267—270
Fillmore, P. A., Sums of operators with square zero ..... 285—288
Fodor, G., On a process concerning inaccessible cardinals. III ..... 197—200
Foiaș, C., et **Sz.-Nagy, B.**, Forme triangulaire d'une contraction et factorisation de la fonction caractéristique ..... 201—212
——— Echelles continues de sous-espaces invariants ..... 213—220
Гечег, Ф., О семействах автоматных отображений ..... 39—54
——— О многотактных автоматах ..... 55—60
Halász, G., Remarks to a paper of D. Gaier on gap theorems ..... 311—322
Kátai, I., and **Corradi, K. A.**, On multiplicative characters ..... 71—76
——— An example in the theory of Fourier series ..... 77—82
Lajos, S., A note on completely regular semigroups ..... 261—265
van Leeuwen, L. C. A., On the endomorphism ring of direct sums of groups ..... 21—76
Leindler, L., On the absolute summability factors of Fourier series ..... 323—336
——— Corrigendum to the paper: On the strong summability of orthogonal series ..... 337—338
Loy, R. J., A note on the preceding paper by J. B. Miller ..... 233—236
McFadden, R., On homomorphisms of partially ordered semigroups ..... 241—249
——— Homomorphisms of partially ordered semigroups onto groups ..... 251—254
Miller, J. B., Homomorphisms, higher derivations, and derivations on associative algebras 221—232
Moór, A., und **Pintér, L.**, Über äquivalente Variationsprobleme von mehreren Veränderlichen ..... 271—280
Móricz, F., On the order of magnitude of the partial sums of rearranged Fourier series of square integrable functions ..... 155—166
Nollau, V., Über Potenzen von linearen Operatoren in Banachschen Räumen ..... 107—122
Pawelke, S., und **Butzer, P. L.**, Ableitungen von trigonometrischen Approximationsprozessen ..... 173—184
Pearcy, C., and **Deckard, D.**, On rootless operators and operators without logarithms 1—8
Peetre, J., On interpolation of L_p spaces with weight function ..... 61—70
Pintér, L., und **Moór, A.**, Über äquivalente Variationsprobleme von mehreren Veränderlichen .....
Rácz, A., Sur les transformations de classe $\mathscr{C}_\varrho$ dans l'espace de Hilbert ..... 305—310
Rickert, Y. Y., Positive definite contraction valued functions on locally compact abelian groups ..... 289—298
Schipp, F., Über die Grössenordnung der Partialsummen der Entwicklung integrierbarer Funktionen nach W-Systemen ..... 123—134
Schwartz, S., On the index of imprimitivity of a nonnegative matrix ..... 185—190

Stampfli, J. G., and **Berger, C. A.**, Norm relations and skew dilations ..... 191—196
Steinfeld, O., On a generalization of completely 0-simple semigroups ..... 135—146
Szász, F., Einige Kriterien für die Existenz des Einselelementes in einem Ring ..... 31—38
Sz.-Nagy, B., et **Foiaş, C.**, Forme triangulaire d'une contraction et factorisation de la fonction caractéristique ..... 201—212
———— Echelles continues de sous-espaces invariants ..... 213—220
Tandori, K., Ergänzung zu einem Satz von S. Kaczmarz ..... 147—156
———— Bemerkung zur Divergenz der Fourierreihen ..... 281—283
Wiegandt, R., Über lokal linear kompakte Ringe ..... 255—260
Williams, J. P., Minimal spectral sets of compact operators ..... 93—106
